

THE CHANNEL'S CLOUD COMPANY

WE LIVE AND BREATHE INFRASTRUCTURE SO YOU DON'T HAVE TO. IT'S OUR PASSION. IT'S OUR LIFE'S WORK.

Since 1999, ServerCentral has been implementing infrastructure solutions for industry-leading companies like ABN AMRO, DePaul University, Mesirow Financial, New Relic, Outbrain, RichRelevance, TrueCar, Shopify, Wildbit, University HealthSystem and USG Corporation.

SERVERCENTRAL'S CLOUD SUITE

CLOUD SERVERS

ServerCentral cloud servers aren't like other cloud servers. Our cloud servers are specifically architected with the unique needs of web servers, app servers and database servers in mind. Your customers can choose from "bare metal" or fully managed options that are flexible, fully customizable and supported by sys-admin level technicians 24x7x365.

CLOUD STORAGE

ServerCentral cloud storage offers file, block and object configurations to meet your customer's needs. They'll focus on their applications and we'll right-size the solution, provide integration services and ensure the proper storage options have been selected to meet their needs today and tomorrow, including multi-site replication, disaster recovery, and backup.

INFRASTRUCTURE AS A SERVICE

ServerCentral IaaS solutions are designed specifically for your customer's business. No more one size fits all. With ServerCentral, all IaaS configurations are designed and managed end-to-end: storage, compute, network, and security - including multi-site, high-availability configurations as needed.

CLOUD SECURITY

ServerCentral provides a complete suite of cloud security services including fully managed firewalls, switches and routers. Completely managed DDoS Mitigation solutions are also available providing the most sophisticated inline protection against large scale internet attacks waged against companies today.

SUPPORT

We provide 24/7/365 hands on, onsite support by sys admin-level technicians for all ServerCentral solutions Your customers will ALWAYS talk to an expert that can solve their problem.

Our average support ticket response time is 15 minutes or less in our Chicago-area facilities.

SERVERCENTRAL AUGMENTS ALL CLOUD SOLUTIONS WITH A FULL RANGE OF MANAGED SERVICES, INCLUDING

MANAGED FIREWALL

Prevent malicious traffic from reaching your servers or end users

STANDARD

Protect one, multiple, or all servers that share the same VLAN with a dedicated hardware firewall

ADVANCED

Get complete, granular control over advanced firewall and security features

MANAGED SWITCH

A resilient network with proactive monitoring, alerts, upgrades, and hardware replacements

100% DEDICATED

Juniper EX or QFX switches installed in your cabinet

ADVANCED FEATURES

Low-latency forwarding

LAYER 2/3 SWITCHING

VLANs and basic Layer 3 functionality

STACKABLE

Stackable fabrics with loop-free architectures

REPORTING

Switchport metrics and graphs available in our customer portal

MANAGED MONITORING

Deep visibility into server, storage, and network infrastructure

ALERT

Get service-impacting alerts and pre-scripted escalations

ALERT + REMEDIATION

Get service-impacting alerts, pre-scripted escalations, and onsite remediation 24/7

MANAGED LOAD BALANCER

Distribute server workload among multiple pairs of unshared devices

HIGH AVAILABILITY WEBSCALE

Enjoy no single points of failure

DEDICATED APPLIANCE PAIRS

Weather the storm of a failed server or traffic burst with 100% uptime, guaranteed

WHAT OUR CUSTOMERS SAY ABOUT US

"With ServerCentral, I can just order a service and know it's done right."

Standard Parking

"I have yet to meet someone at ServerCentral that I don't like working with. Fantastic people. Fantastic service. Top to bottom."

DePaul University

"CDW has sold multimillion dollar cloud deals and asked ServerCentral to do 100% of the racking, stacking, and cabling. I mean these are multimillion dollar deals—and we trust ServerCentral. That speaks volumes."

CDW

"We lean on ServerCentral's sales and network engineers for everything. We consider them an extension of our own staff."

New Relic
